## STALIN AND THE KIROV MURDER

Robert Conquest

The assassination in 1934 of Sergei Kirov, Secretary of the Central and Leningrad Party Organization, member of the Moscow Politburo, and his apparent to Joseph Stalin, is a fascinating, at times chilling, story of one of the most significant crimes of the century.

## THE SOCIAL IMPACT OF THE CHERNOBYL DISASTER

David R. Marples

Introduction by Victor G. Snell

The events following the April 1986 explosion at the Chernobyl nuclear power plant are examined, including the controversial clean-up campaign around the damaged reactor and the repopulation of surrounding villages.

**Negotiating Freer Trade  
The United Kingdom, the United States,  
Canada, and the Trade Agreements of 1938**

**Ian N. Drummond and Norman Hillmer**  
Drummond and Hillmer explore the 1938 Trade Agreements  
signed by the three countries. Their study provides a clear and  
detailed account of the economic context of the mid-1930s, the  
process of negotiations, the issues, and the political and economic  
significance, then and now, of the final agreements.

## OPEN FOR BUSINESS The Roots of Foreign Ownership in Canada

Gordon Laxer

(Associate Professor of Sociology at the University of Alberta)

This book delves behind the most recent subjects of debate on foreign ownership, including the National Energy Program, FIRA, and the Canada-US free trade deal.

Using a wide-ranging comparative approach, Laxer subjects the standard explanations of Canada's economic dependence to careful and critical scrutiny. He challenges the theories of accepted orthodoxes from conservative to Marxist - including those of George Grant, Donald Creighton, Harold Innis, Hugh Aitken, Wallace Clement, and Leo Panitch - arguing that their assumptions about external control, the role of the Canadian elite, and the effects of geography are not adequate to explain Canada's failure at more independent development.

Persuasively argued, *Open for Business* is a fresh look at the Canadian experience. By challenging accepted perspectives about Canada's past, it offers important insights for the future.

## New for 1989

### The New Geopolitics of Minerals

Canada and International Resource Trade

DAVID G. HAGLUND, ed.

This is the first book to focus on the Canadian minerals trade and Canada's changing status as a resource exporter and importer. The contributors explore the current climate regarding minerals and their relevance to national and international security and identify particular Canadian interests that are exposed to the effects of new developments in the geopolitics of minerals.

300 pages, approx., tables, \$30.00 (Tent.)

### The Political Economy of Pensions

RICHARD LEE DEATON

This timely and provocative interdisciplinary study draws attention to the inefficiency of recent pension reform initiatives in Canada, the United States, and England. Deaton identifies personal problems and structural issues which will be important in terms of power, politics, and social change in the future.

500 pages approx., tables, charts, \$55.00 (Tent.)

# KENNAN AND THE ART OF FOREIGN POLICY

Anders Stephanson

"What makes this work special is its intellectual range and daring...To my mind this is a most unusual work and one that should provoke wide-ranging discussion. It is provocative in the best sense of the word, and links modes of thought that are too often kept in separate compartments in American social science."

—Ronald Steel, University of Southern California

# TO MAKE A WORLD SAFE FOR REVOLUTION

Cuba's Foreign Policy

Jorge I. Domínguez

In his new book, Jorge Domínguez presents a comprehensive survey of Cuban international relations since Castro came to power. He argues that there is indeed a specifically Cuban foreign policy poised not only between hegemony and autonomy, between compliance and self-assertion, but also between compliance and self-assertion.

# TOCQUEVILLE AND THE TWO DEMOCRACIES

Jean-Claude Lamberti

Translated by Arthur Goldhammer

"A profound and thoughtful reading of *Democracy in America* that examines the ways in which Tocqueville saw the relationship between the two democracies, the French and the American, that is, the revolutionary and the liberal."

—Stanley Hoffmann, Harvard University

# THE AMERICAN POLITICAL ECONOMY

Macroeconomics and Electoral Politics

Douglas A. Hibbs, Jr.

Hibbs is a leading figure in the field of comparative political economy. Reading these pieces does impress one with the significance of the issues Hibbs has tackled and the sophistication of his techniques."
