

Second report of the co-programme chairs CPSA 2024

Since the first report, we have been actively searching for section heads. At this point, we have been able to confirm the following people. (see table below). As you will note, there are a couple of sections that still need to be filled. Despite a few vacancies, we are hopeful to find interested parties in the upcoming days and weeks to have a full and dedicated programme committee. Of course, if the Board has any suggestions for us, we will welcome them as well. We must say that a few people manifested interest but depending on the location. As we discussed in our first report, not knowing the dates and places of the Conference has been a barrier. That being said, we do have an enthusiastic group, with both junior and more senior colleagues.

As agreed after the submission of the first report, the theme will be “Approaches, Knowledges and Methods for the World of Tomorrow”. The Programme Committee will meet on June 1st during the 2023 CPSA in a hybrid format. This will be a great occasion for all section heads to meet and share their ideas of potential workshops, keynote speakers, etc. along this theme. Finally, we cannot thank enough the fabulous work of the staff at the CPSA office, special mentions to Silvina.
